Ryan Smith   Leamington Spa, UK   07484206052   ryansmith_11@hotmail.com

PERSONAL PROFILE

An ambitious full-stack developer with a passion for developing and designing for the web and beyond. Over 5 years commercial experience in a web developer role, and vast experience with web technologies outside of the workplace. Able to learn new technologies quickly and effectively to suit any kind of project. Strong desire to build upon my existing knowledge and further myself as well as contributing to a team of like-minded people.

KEY SKILLS

Main technical skills: Linux server admin (AWS/Gcloud/DigitalOcean), React, Typescript/Javascript, PHP, Node.js, CSS/SCSS/Tailwind, SQL, Jquery, Three.js, Git/CI

Other skills: Figma, Photoshop

INTERESTS

Travel: I have a love for visiting new places and experiencing different cultures. I spent a year in New Zealand working and travelling.

Football: Play for local team. I captained my university college team which involves organising everything like squads and training. Avid Manchester United fan.

Web development: I follow many Front End web development accounts on twitter and keep up with latest trends and new libraries etc.

3D printing - I own a 3D printer and also enjoy using CAD software to make my own custom parts for various projects
